

EDUOS OPERATIONS GUIDE

Pillar 1 — Education CRM

Step-by-step setup for new tuition center administrators — register, teaching profile, batches, and class scheduling.

Pillar 1 — Education CRM

Product: EduOS · **Layer:** 1 · **Sidebar:** Education CRM

Purpose

Education CRM is your **sales-to-operations pipeline**. It captures inquiries from every channel, tracks prospects through demo and admission stages, and converts enrolled leads into Academy students.

EduOS is ops-first — CRM handles **enrollment logistics**, not course content.

Who uses it

Role	Access
Center admin	Full CRM + Public Website
Platform owner	Support view into any center's CRM
Teachers / parents	No CRM access

Modules & functionalities

PUBLIC WEBSITE

Path: Education CRM → Public Website

Tab	Function
Live preview	See your center landing page as parents see it
Page settings	Edit headline, tagline, courses offered, contact info
Web inquiries	List of leads created from the website form

Inquiries from the public page automatically create CRM leads with source **Website**.

LEAD PIPELINE

Path: Education CRM → Lead pipeline

Dashboard stats: Active leads, conversion rate, demos scheduled, needs follow-up.

Pipeline stages (in order):

- 1. Lead
- 2. Inquiry
- 3. Demo Class
- 4. Counseling
- 5. Admission
- 6. Payment
- 7. Batch Allocation
- 8. Student (converted)

Lead sources: Website, WhatsApp, Facebook Ads, Referral, Walk-in, Guest Marketplace, Student Marketplace, Parent Marketplace, Other.

Tabs:

Tab	Use
Pipeline	Kanban board — drag cards through stages
All Leads	Searchable table with stage/source filters
Follow-ups	Leads with follow-up date due today or overdue

How to use — step by step

A. SET UP YOUR PUBLIC WEBSITE

1. Go to **Education CRM** → **Public Website** → **Page settings**.
2. Enter center name, tagline, phone, email, and courses list.
3. Save and check **Live preview**.
4. Share the public URL (marketplace / guest inquiry flows also feed CRM).

B. ADD A LEAD MANUALLY

1. **Lead pipeline** → **+ New Lead**.
2. Enter name, phone, grade, course interest, and source.
3. Save — lead appears in **Lead** column.

C. RUN A LEAD THROUGH THE PIPELINE

1. Open lead **Details** from a pipeline card.
2. Set **Demo date** and **Demo time** when scheduling a trial class.
3. Set **Follow-up date** for callbacks.
4. Log activities (calls, notes) in the activity field.
5. Click **Advance** → on the card to move one stage forward, or change stage in Details.
6. Send **WhatsApp** follow-up from the lead card or detail modal.

D. ENROLL A LEAD AS A STUDENT

1. Move lead to **Batch Allocation** stage.
 2. Click **Enroll** on the pipeline card (or in lead Details).
 3. Pick a batch and confirm parent/student details.
 4. Lead moves to **Student (converted)** and appears in **Academy** → **Students**.
-

Verify

- [] Public website preview shows correct center info
 - [] Test inquiry creates a lead in CRM (source: Website)
 - [] Lead advances through stages; activity log records notes
 - [] **Enroll** creates a student in the chosen batch
 - [] Conversion stats update on CRM dashboard
-

Demo tip

Log in as **Center admin** (`admin@brightminds.demo` / `demo123`) → **Education CRM** → **Lead pipeline** to see sample leads in multiple stages.
