Pillar 5 — Tutor Success

Product: EduOS · **Layer:** 5 · **Sidebar:** Tutor Success

Purpose

Tutor Success is the **teacher workspace**: lesson plans, homework review, schedule, availability slots, performance metrics, and professional development. It connects teachers to batches without replacing Zoom/Meet for live teaching.

Who uses it

Role	Access
Center admin	All tutors (overview table) + own profile if linked as teacher
Teacher	Own batches, schedule, homework queue, lesson plans

Modules & functionalities

Path: Tutor Success

Teacher selector (admin): pick any tutor from dropdown. Defaults to your linked profile if **Settings** → **I also teach classes** is enabled.

Tabs:

Tab	Function
Overview	Tutor roster table — batches, students, score, pending review, upcoming class
Performance	Batch progress, completion rates, student counts
Lesson Plans	Create, AI-generate, deliver, delete lesson plans
Homework	Submissions awaiting grade — Grade button per student
Schedule	Upcoming classes + Manage slots for availability
Development	Log PD activities (hours, type, status)

Availability slots (critical for Academy batch scheduling):

- Each slot = days + start/end time
- Multiple slots per teacher (e.g. weekday evening + Saturday morning)
- **Manage slots** → **Save availability**
- Booked slots hidden when admin creates another batch for same teacher

How to use — step by step

A. SET YOUR AVAILABILITY (TEACHER OR OWNER-TEACHER)

1. **Tutor Success** → **Schedule tab**.
2. Click **Manage slots**.
3. Add slot: select days (Mon/Wed/Fri), start time, end time.
4. Add more slots if needed → **Save availability**.
5. Confirm slots display in Availability panel.

B. REVIEW TODAY'S WORK (TEACHER LOGIN)

1. Log in as **Teacher** (`anita@tutorhub.com` / `demo123`).
2. **Teacher Today** shows next classes and tasks.
3. **My schedule** mirrors Academy schedule for your batches only.

C. CREATE A LESSON PLAN

1. **Tutor Success** → **Lesson Plans tab**.
2. **+ Lesson Plan** — manual entry, or **AI Lesson Plan** for draft.
3. Fill topic, objectives, activities, homework.
4. After class: **Mark delivered**.

D. GRADE HOMEWORK

1. **Homework tab** — table of pending submissions.
2. Click **Grade** — enter score and comments.
3. Graded work updates Student Success and parent views.

E. TRACK PERFORMANCE (ADMIN)

1. **Overview tab** — compare tutors on batches, students, pending reviews.
2. **Performance tab** — batch-level curriculum progress bars.

F. LOG PROFESSIONAL DEVELOPMENT

1. **Development tab** → **+ Log PD Activity**.
 2. Enter title, type, hours, date, status.
-

Owner who also teaches

1. **Settings** → **My teaching profile** — enable **I also teach classes**.
 2. Tutor Success opens on your profile automatically.
 3. Set availability here before creating batches assigned to yourself.
-

Verify

- [] Availability slots saved and visible on Schedule tab
 - [] **Academy** → **Batches** shows your free slots when you are assigned teacher
 - [] Teacher login sees only own batches in schedule
 - [] Lesson plan can be created and marked delivered
 - [] Homework grading updates student assignment status
-

Demo tip

Compare **Center admin** Tutor Success (all tutors) vs **Teacher** login (scoped to Anita's batches).
