

EDUOS OPERATIONS GUIDE

Pillar 9 — Extensions & Partners

Step-by-step setup for new tuition center administrators — register, teaching profile, batches, and class scheduling.

Generated 2026-07-24 · tutor-hub / EduOS

Pillar 9 — Extensions & Partners

Product: EduOS · **Layer:** 9 · **Sidebar:** Extensions → Extensions & Partners

Purpose

Extensions connect EduOS to **tools you already use** for teaching and business ops — Zoom, Google Calendar, WhatsApp, payroll partners, GST services, and message templates. EduOS remains the **operations hub**; lesson content stays on external platforms.

This is **not** a course content marketplace.

Who uses it

Role	Access
Center admin	Browse, connect, disconnect extensions
Other roles	No marketplace access

Modules & functionalities

Path: Extensions & Partners

Stats: Integrations count, ops templates, partner services, active connections.

Tab	Function
Browse	Search/filter integrations, templates, partner services — install or view details
Connected	Extensions already active in your academy
Connections	SDK-style tools (Zoom, Calendar, Twilio, etc.) — Connect / Disconnect toggles

Extension types:

Type	Examples
Integration	Zoom Class Connector, Google Calendar sync
Ops template	Fee reminder packs, announcement templates
Partner service	Payroll, GST filing, fee reconciliation partners

Note: OpenAI and WhatsApp API credentials are configured in **Settings**, not here — but Connections tab links you to that reminder.

How to use — step by step

A. BROWSE EXTENSIONS

1. Open **Extensions & Partners** → **Browse**.
2. Search (e.g. "payroll", "GST", "Zoom") or filter by type.
3. Read description, author, price, and install count.
4. Click **Details** for full information.

B. CONNECT AN INTEGRATION

1. On a card, click **Connect** (or **Install**).
2. Item moves to **Connected** tab with green badge.
3. Follow install hint on card (e.g. configure meeting platform on batches).

C. MANAGE CONNECTED ITEMS

1. **Connected tab** — list of active extensions.
2. Click **Disconnect** to remove if no longer needed.

D. SDK CONNECTIONS

1. **Connections tab** — see Zoom, Google Calendar, Twilio, etc.
2. Click **Connect** per tool — toggles installed state.
3. Use connected Zoom/Meet links when generating batch schedules (Academy → Batches).

E. PARTNER SERVICES

1. Browse **Partner services** filter for payroll/GST help.
2. Partner handles salaries and tax — EduOS tracks **student fees** separately.
3. Contact partner via details on card if offered.

F. RATE AN EXTENSION

1. On Browse, click **Rate** (non-partner items).
 2. Submit rating to help other academies choose.
-

Recommended connections for new centers

Priority	Extension / setting	Why
1	WhatsApp (Settings)	Parent reminders and fee nudges
2	Zoom or Google Meet (batch platform)	Live class links in schedule
3	Google Calendar (Connections)	Sync sessions externally
4	Fee Reminder template pack	Pre-built comms templates
5	Payroll partner (optional)	Staff salaries outside EduOS

Verify

- [] Browse tab loads extension cards
- [] Connect adds item to Connected tab
- [] Disconnect removes from Connected
- [] Connections tab toggles SDK tools
- [] Batch meeting links use chosen platform after integration

Demo tip

Extensions & Partners → **Browse** — connect **Zoom Class Connector** or an ops template, then verify under **Connected**.
